

## Internet Safety Pledge

Camp Fire USA encourages parents to talk with their children about Internet Safety. One good resource is from NetSmartz ([www.netsmartz.org](http://www.netsmartz.org)), a program of the National Center for Missing & Exploited Children. NetSmartz recommends using an "Internet Safety Pledge" to promote family safety discussions and create safe boundaries for using the Internet. Go to the following link to find out more about Internet safety tips, and age appropriate Internet safety pledges.
