

You're invited to Eagle Harbor High School's First Annual

Elwha Project Presentations

Tuesday, June 6
Room 507 (Marie's room)

1:30 – 2:50 P.M.

We've had a successful and exciting first year. Students have chosen personal projects to develop, after spending a week at Olympic Park Institute becoming familiar with the Elwha Dam Removal and Restoration plans. Completed projects will be presented, as well as a slide show of the many pictures we've taken during the year.

Erin Ayriss and Jessica Johnson: Mythology of Lower Elwha Klallam Tribe.

Logan Bond: Poster of changes that will occur when the dams are removed from the Elwha.

Page Boniface, Logan Bundrant: Analyzing the SEIR report: the Wide-ranging Effects of the Dam on the Elwha River Ecosystem.

Lauren Cuykendall: Geology of the Elwha River watershed.

Rebekah Gelbach: History of the Lower Elwha Klallam Tribe (reservation is at river's mouth)

Spencer Hepp, Eli Jacobsen: Invasive vs. native plants: How animals and other plants are affected.

Jesse Koda: Lower Elwha Klallam history display, using her own photographs.

Eric Lay, Katelyn Simon: Introduction of non-native plants and animals in the Elwha River watershed.

Nicole Lisson, Chelsea Mahnke, Richard Murphy: Pop-up book on the salmon life cycle.

Jaelyn Oakland, Brian Olalia: Resource book on salmon issues for 4th grade teachers to use with students going to OPI for outdoor ed camp.

Julie Tamanini: Tribal Ethnobotany of the Puget Sound Region.

HOPING YOU CAN COME! Marie Marris and Mary Kay Dolejsi
