

Film Festival & Community Service Expo

“What will you do to make a difference in your community?”

Some questions you might ask of the student presenters and/or community service agency representatives:

- What needs does your project/agency help fill?
- What are the causes of those needs?
- What did/do you do that seems to be effective in service to others?
- How does your understanding of the community change as a result of your participation in this service work?
- How can you educate others or raise awareness about this social issue?
- What are the most difficult and most satisfying parts of the service you are performing? Why?
- How is your service relevant to what you are learning in class?
